GEM COMMUNITY CLUB WILL HOLD ANNUAL MEETING

Officers to be elected and plans drafted for coming season.

On Monday night a general meeting of all the members of the Gem district will be held in the school house on Friday evening next week, May 10th, to reorganize the Community Club. The balance sheet for 1918 will be read, and officers will be elected for the coming season. It is also proposed to discuss plans for this year's program of activity. Everyone in the community is invited to attend this meeting. After the transaction of business an ice cream social will be held; no charges for refreshments.

More than one hundred young ladies arrived at the Tots farm last week. A good time is reported by all who attended the Gem school on Friday evening when the Peppy Four Orchestra put on a dance.

On Wednesday last Mrs. E. Small was a welcome caller on Mrs. Maguire. Mr. and Mrs. Cini Marguere are back in the Colony, tenants on the old Williams place.

Mr. and Mrs. Pollock and family were in Bassano on Sunday last seeing Willie off for Calgary where he plans to take a business course at Garbath College.

All Colony farmers are on the land plowing and seeding their 1919 crops. Mr. Atkins and his father went on a hurried trip to Calgary on Monday last.

Mrs. Fortney, with Mrs. Schreiber spent a pleasant Thursday afternoon with Mrs. Miller at the telephone office.

H. J. Schreiber has rented Mrs. Horne's farm, and is busy plowing land and getting ready to put in the crop.

Mac Ferguson, of Cochrane, is a new man in this area, calling on several Gem farms. Mr. Martin's house is already done, and last week Mr. Ferguson was working on the Stanley Selridge farm. Rumor says several more farm homes and barns will be painted. Already Stanley's green painted roof shows up well on the board boulevard. Let's hope all our farmers follow this good example and clean up.

Several children in the district are suffering from measles of a mild form. Young David Atkins is one of the little sufferers.

Grace and Ida Horne are making their home with Mrs. Sandahl and Edith, Eds., Owen, and George during their mother's absence in Calgary.

Rev. Ramer, of Duchesne, will be in Gem school on Sunday evening to take charge of the service, while Sunday school will be held at the usual time.

Stanley Selridge is about the first farmer to finish seeding his wheat crop. About 150 acres of this grain was seeded a few days ago.

Bill Pollock has also finished seeding his wheat, several other farmers will finish seeding within a day or so.

Mr. and Mrs. Harve were Sunday

FIRE WARNING

According to new regulations issued by the provincial authorities, farmers in that part of the province south of the North Saskatchewan river must not burn straw stacks or stubble fields. The balance sheet for 1918 will be read, and officers will be elected for the coming season. It is also proposed to discuss plans for this year's program of activity. Everyone in the community is invited to attend this meeting. After the transaction of business an ice cream social will be held; no charges for refreshments.

Further Rainfall Aids Wheat Crop

Seeding is nearly finished—showers fell last Sunday and Monday.

Another quarter inch of rain fell at Bassano last Sunday and Monday to help the wheat crop, which is now more than 90 per cent seeded. Gen. Countess and Rosemary were also in the rainfall area. The precipitation registered in these districts was as follows:

Sunday, April 28

Bassano 28 inch .06 inch

Bassano Dam 12 inch .17 inch

Monday, April 29

Bassano 18 inch .18 inch

Countess 20 inch .11 inch

The rain was especially welcome in the Gem district where, previous to Sunday's shower, the precipitation this week had been practically nil.

Wheat seedling is now more than 90 per cent seeded in the Bassano district, and the early snow grain is now showing above the ground on some farms. The soil holds a considerable amount of moisture, and the crop is getting a good start.

Farmers who have finished their wheat seeding are now putting in late crops.

Only a small acreage is cropped with fall rye this year. The rye crop last year was light, owing to lack of rainfall in the early part of the season, and this year the rye crop is looking well.

Swenson Brothers arrived in Bassano on Thursday. They have bought and will take up on the north farm on Sunday.

Miss Loh McKinnon and R. B. McKinnon returned to Bassano on Friday. Mr. McKinnon, with Lola and Gladys Halsey, returned to Calgary, returning early Saturday morning.

Bernice Leonard, while driving home the cows on Wednesday evening, had her hand badly lacerated by a wire when her pony became entangled in a strand while going under a wire.

Mr. and Mrs. W. J. Bisset and Mrs. Bisset returned from Great Falls, Montana, in a large truck, arriving at Bassano on Thursday on route for the farm near Duck Lake.

Wm. McLane and A. O. Bond, of Bassano, were in Husar on Saturday.

Brooks town council is considering the installation of an electric light and power system to be operated by the Calgary Power Co. The plan is to install a power line from the Calgary Power Co. to the town of Brooks, and to install a power plant in the town of Brooks.

Three companies now have oil supply stations in Bassano. They are: Imperial Oil, Ltd.; North Star Oil & Refining Co.; and the British American Oil Co., Ltd.

GOVERNMENT WILL BUILD NEW VENDORS STORE FOR BASSANO

The provincial Department of Public Works is calling for tenders for the building of a liquor vendor's store in Bassano. The site and location of the new building have not yet been publicly announced.

The town of Hanna is also to have a new government liquor store.

BASEBALL

The baseball club had a practice last Sunday afternoon. Several players turned out to make up two teams, and the boys had a good workout. Several old-time ball players tried their hand at the game, and showed the youngsters that they could still waltz the old horsehide.

The club is getting all available players lined up, and should field a strong team this summer.

The town of Hanna is also to have a new government liquor store.

Plan To Readjust The Capitalization Of Public-Owned Railways

Ottawa.—For the first time since the creation of the National railway system, the government of the day through a responsible minister, pledged itself to the public in adjusting the capitalization of the public-owned railways.

In the special committee of the House of Commons which deals with accounts of the National Railways, this question was discussed, and Hon. Charles A. Dunning, minister of railways, stated unequivocally that he regarded the recapitalization of the system as being of "very great importance" and that the government desired at the earliest possible moment to deal with it.

Classified "leading" opposition in the recapitalization of the National Railways arose immediately from Conservative members of the committee. R. R. Hanson, Conservative member for York-Sunbury, who has taken a leading part in the work of the committee, at this juncture, with the carrying out of the policy would bring demands for reductions in rates. He thought this was a very strong argument against the recapitalization being talked of.

Mr. Dunning and Sir Henry Thornton, however, held out for the recapitalization, pointing out that the former was a measure which would follow and asserting that only in this way could Parliament deal justly by the public and conscientious carriers who are endeavoring to make the system a complete success and who feel that their best government is nothing in overlooking the needs of a huge, untidy and unjustified capitalization.

Mr. Dunning introduced the subject and in the course of his remarks made it quite clear that the action he had taken had been taken in the light of the fact that the intervention of joint shareholders of the old Grand Trunk Railway, who are leading the fight to see the government for compensation on account of their securities.

He failed to inform the committee as to whether or not the government would permit these shareholders to take shares in the public, but he is commonly believed that a bill will be introduced and the case started in the privy council.

Increase In Manufacturing

Products Of Prairie Plains Last Year Much Greater

Winnipeg.—Manufactured products of the prairies during the past year exceeded the sum of \$227,000,000 in value, according to J. W. Ackland, retiring chairman of the Manitoba Manufacturers' Association, at the annual meeting of the association.

Utilization of the natural wealth of northern Manitoba and Saskatchewan, and exploitation of the oil resources promise tremendous increases in the industrial output in the three central provinces, he stated.

Organize Wheat Pool

Lincoln, Neb.—Wheat-raisers of Nebraska and Wyoming to the number of 250 have effected organization of a wheat pool, giving it the name of the Middle West Market Association non-stock co-operative. The pool was said to represent 12,000 grain raisers in the two states and was declared to be the largest in the middle west.

Air Survey Completed

The Pas, Man.—Arriving here, Captain Charles Stott, pilot, and party have just completed an 8,000-mile aerial voyage which took them into the northern wilds, far beyond Fort Churchill. Motion pictures of the northern scenes and of the interesting incidents were taken. This was the main objective of the journey.

Princess Celebrates Birthday London, England.—Viscountess Lascelles, the only daughter of the King and Queen of England, better known to Britons as Princess Mary, celebrated her thirty-third birthday April 25.

Cable Is Restored

Halifax, N.S.—The Halifax and Bermuda cable, which has been down for some time, has been repaired, re-establishing direct communication between Canada and the British West Indies, via Bermuda.

Airmen Killed At Toronto

Machine Went Out Of Control And Killed Two Flying Field Men

Toronto.—Noel Marshall and William MacKenzie, residents of Toronto, were killed yesterday when their machine crashed and landed near the Leaside flying field.

It was reported that MacKenzie who had but recently been granted a pilot's certificate, was in charge of the Gypsy Moth plane, with Marshall, a qualified pilot, as a passenger.

The plane was said to have been but 100 feet above the ground when it went out of control and crashed with such force the engine burst its way.

Calendar Expert At Ottawa

M. H. Cotsworth Discussed Matter With Government Members

Ottawa.—To add to the suggested establishment of a national committee to Canada to consider proposed calendar reform and its effect on the Dominion, M. H. Cotsworth, of Rochester, N.Y., originator of the 10-day month plan, has paid a special visit to Ottawa. Mr. Cotsworth conferred with Dr. C. A. Dunning, an ex-secretary of state for external affairs, and with H. H. Coats, Dominion statistician, respecting his proposition.

Answers King's Message

Viscount Wellington Sends Reply On Behalf Of Dominion

Ottawa.—On behalf of the Canadian people, His Excellency Viscount Wellington, governor-general of Canada, has just received the following reply to the King's message:

"I have the honor to acknowledge the receipt of your Majesty's message of the 14th inst., and to assure you that the Dominion is deeply moved by the sentiments expressed therein, and that it is determined to do all in its power to maintain the unity and integrity of the Empire."

ITALY DEMANDS EQUALITY AS TO NAVAL POWER

Geneva.—The problem of naval parity between Italy and Great Britain is the subject of a recent meeting of the League of Nations, which has resulted in a declaration of equality as to naval power.

The declaration states that the League of Nations is determined to maintain the equality of all nations in the field of naval armaments, and that it will take all necessary steps to ensure that no nation is placed at a disadvantage by its neighbors.

The declaration also states that the League of Nations will take all necessary steps to ensure that no nation is placed at a disadvantage by its neighbors, and that it will take all necessary steps to ensure that no nation is placed at a disadvantage by its neighbors.

The declaration also states that the League of Nations will take all necessary steps to ensure that no nation is placed at a disadvantage by its neighbors, and that it will take all necessary steps to ensure that no nation is placed at a disadvantage by its neighbors.

A CHARMING PRINCESS

But Objections Were Raised By Several Countries

Geneva.—The German proposal to abolish the use of aerial bombs in warfare was defeated before the League's preparatory commission on disarmament. Only five countries were in its favor—Germany, Sweden, Holland, China and Russia. Those against it, including Canada, the U.S. and Great Britain, registered their objections with a rider that a negative vote was not to be interpreted as in any way authorizing the use of aerial bombs against civil populations.

Count Von Bernstorff, of Germany, pointed out the toll that had been expected by bombing planes over Paris, Berlin and London, and said that this method of warfare was horrible and cowardly, because the combatants were protected by defensive appliances.

P. Bokai, of Poland, said no one would deny the horror of such methods but the conference had not reached that point and under the League's attitude Poland was not likely to reach it. When war had been outlawed, it was logical to begin codifying rules of war.

M. Litvinoff, of the Soviet, here interpolated that Poland was among those who last year rejected the League's proposal for complete abolition of armaments.

The British government, which was not present, was not likely to reach that point and under the League's attitude Poland was not likely to reach it. When war had been outlawed, it was logical to begin codifying rules of war.

M. Litvinoff, of the Soviet, here interpolated that Poland was among those who last year rejected the League's proposal for complete abolition of armaments.

Reverse Evolution
The motorist had an accident. He limped painfully to a telephone and called up the nearest garage. "Hello," he said. "I've turned turtle. Can you do anything for me?"
"I'm afraid not," came the sweet feminine reply. "You've got the wrong number. What you want is the zoo."

Polliteness?
A little boy was told that when visitors came to the house, it was his duty to pay them some attention. Shortly afterwards a Mrs. Daniels called, and the small boy shook hands with her politely and explained in his best drawing-room manner: "How do you do, Mrs. Daniels? I've just been reading about your husband in the *Journal of Home*."

In building a high tariff wall, the Hoover administration is not making itself popular on this side of the border by allowing the odd tick to fall on their Canadian neighbors.

Old Hodge says what this country needs is not only more oil, but more elbow grease.

By planting a few more trees every spring farmers, in this neighbourhood are converting the bald-headed prairie into a park-like farming district dotted with shade trees and shelter belts.

There are the days when the box car traveller can sympathize with his less fortunate brother who has to stick to his job.

When woman can shave with a dull razor on a fast-moving train without cutting her face in more than four places, then we will admit she is the equal of man.

The boom in Alberta oil stocks affords a wonderful opportunity for dishonest brokers to fleece the public. Last Tuesday the police caught one broker who had shipped off with about \$25,000 in cash and certificates. This should be a warning to speculators to deal only with reliable, well-known brokers. Speculation in oil stocks is risky enough without increasing the hazard by trusting your money with unknown brokers whose honesty and integrity have not been established.

CLEANING UP

Once a year Bassano has a "Clean-up day." Tuesday, May 21, was selected by the town council as clean-up day this year, and on or before this date every resident and business is expected to put his premises in an orderly condition.

Information concerning clean-up day is advertised in another column of this issue. It will not be a public holiday.

It is the duty of every resident to have clean, attractive looking premises. Refuse and rubbish constitute a fire hazard, and are a menace to good health. Don't let them accumulate in your yard. Individual effort in maintaining clean premises will result in a cleaner and healthier town.

OUR NEW NEIGHBOR

In an editorial in last week's paper J. H. Nesbitt, editor of the Brooks Bulletin, announces the sale of the business to Robt. Williamson and Chas. Stephens. The Bulletin thus passes out of the hands of the Nesbitt family under whose capable editorship it has been published for the past fifteen years.

The newspaper field is a new venture for the new owners of the Bulletin. They are two young men who are well known in Brooks having resided in that town for the past number of years. We wish them success. They will find that publishing a country weekly, like any other business, has its ups and downs, its periods of prosperity, and periods of depression. There are times when everything runs along smoothly, and times when the resourcefulness and patience of the editor are taxed to the utmost degree. But the editor whose heart is in his work takes the rough sailing with the smooth, bears reverses with fortitude, and gets the old paper out every week no matter what else may happen. And he gets a huge kick out of his work.

A PRAYER

This I would make my prayer:
That no one's weight of care
Shall heavier be,
Because of me;
That I have sung the psalm
That I have sung the psalm
Which caused his groan.

Lord, let it never be said
That I have dared to tread
A heartless road,
And piled a load
Upon a fellow back,
Or while or black,
Compelling helpings him
To run to serve my whim.

I would not come to power
For one brief hour
To rule and fright
To show my might;
If help I cannot give,
Humbly I choose to live,
I would not crush men down.

—Edgar A. Guest

Smile Your Wash-day Worries Away

Why Not Buy a Connor Washing Machine?

We have these machines in electric and gas engine power. We will send a machine to your house on trial.

The Thermo Washing Machine

This has a steel encased nickel plated copper tub, which retains the heat of the water twice as long as the ordinary copper tub.

Safe and Quick Connor Agitator Water Action

This does not drag the clothes through the water. It has the safest wringer made, because of the safety release. It uses less current than an electric iron.

ROMANCE

By E. Lillian Morley

Like distant roar of the wind-beaten surf,
Accends the sound of traffic far below;
Across the narrow chasm of the street,
The neighboring lights of other
Labels glow.

The clanging sound of metal, making trade,
Mingles with voices shrill amid the throng;
Serenely calm, a man checks added lines,
Hearing but fragments of a woman's song.

He sees a kitchen, gay as daffodils,
White hands so deftly settling things for tea,
Dark, tender eyes watching a quiet road,
And counts his figures o'er, exultantly.

FINER THAN EVER and LOWER IN PRICE

GARNETT WHEAT PROVES OF SUPERIOR QUALITY

Experts Say Reward Will Supercede All Other Varieties

Winning—in color, volume of load and gluten content, Garnett wheat is superior to Marquis though the two varieties show no appreciable difference in absorption and bread yield, according to the result of a test completed at the Kewin mill of the Lake of the Woods Milling Co.

"If a high quality of flour is to be a first consideration," states the report of the company's investigators, "we cannot recommend Garnett for our mills. The result of this test further confirms our previous convictions."

To stage the experiment, which gave results in accord with previous tests, a mix of 2,000 bushels of Garnett wheat was milled in comparison with Marquis on a commercial basis. An excellent sample of Garnett was used in the test weighing 85 1/2 pounds per bushel and averaging 13.5 per cent protein; the Marquis sample weighed 83 1/2 pounds per bushel, and averaged 12.3 per cent protein.

Regarding Reward wheat, the company's test states that the variety is consistently from 1 to 2 per cent higher in protein than Marquis and equal to Marquis in all the best baking points. Hope was expressed in the report that supreme success in producing Reward might in the near future enable it to replace all other varieties.

THE finer Oldsmobile is more beautiful than ever in appearance—the result of new style refinements and new color combinations now presented in its composite bodies by Fisher.

The finer Oldsmobile is more luxurious, more comfortable and offers new conveniences for driver and passengers. Roominess is a feature. Seat cushions are deeper and softer. Upholsteries are richer. And the new Fisher adjustable front seat, combined with Oldsmobile's adjustable steering wheel, makes the driving position a matter of individual choice.

The finer Oldsmobile provides even more gratifying and dependable performance. Its big high-compression engine now develops 68 horsepower. Typical of its fine air design, oil is forced directly to the piston-rod through rifle-drilled connecting rods—a feature heretofore characteristic of high-priced cars.

Come in and see this new Oldsmobile—finer than ever—and lower in price. 9-37-4-426

"That's the worst part of these old houses; you are bound to get something like that."

NEW BULLETIN ON WEED PROBLEM ISSUED

Alberta's Weed Problem, Bulletin No. 2, has recently been issued by the Field Crops branch of the Alberta Department of Agriculture, and is now available for distribution through the office of W. J. Hughes, field crops commissioner. This publication brings up to date much valuable information dealing with the control and eradication of noxious weeds in the province, and will be read with attention by farmers and others interested in the problem.

Local News

Guy Foster left by motor Tuesday on a trip to Edmonton.

Barton Ford was a visitor to Calgary last week-end.

Wm. McEwen was a business visitor to Calgary on Monday.

Dr. W. F. Keith went to Calgary Sunday returning the same evening with Mrs. Keith.

Mr. and Mrs. W. R. Sambrooke and Mrs. W. J. Desmond motored to Calgary last Friday.

Artie Simpson is now in the employ of the C.P.R. D.N.R., assistant to M. D. MacDonald.

Atlas Yale has left the C.P.R. D.N.R. and is now working with his father at road grading.

Miss Gladys Hunter returned home Tuesday from Edmonton where she was attending university.

Miss Gladys Hayes and Miss Lillian Hayes were visiting with their parents in Hussar on Sunday.

Jacky Bulmer, who has been attending the University of Alberta in Edmonton, returned home on Wednesday.

Miss Lillian Hayes was down from Calgary Saturday evening visiting friends in Bassano.

Miss Jean Cameron, of the local hospital nursing staff, left on Wednesday for Vancouver.

Monday, May 26th, is Arbor Day. It will be a bank holiday, but the stores and post office will remain open.

A number of Bassano young people attended the Tuxedo-Ballet wedding dance in Hussar last Friday evening.

Wm. Buchanan came up from Retlaw last Saturday evening, returning home on Sunday with Mrs. Buchanan and baby boy.

Mr. and Mrs. Hobson, from Manitoba, were visitors for a few days with Dr. and Mrs. A. G. Scott.

Mr. and Mrs. C. W. Atkin were in town the early part of the week preparing to ship their household furniture to their new home in Winnipeg.

The W. A. of the Anglican Church will hold a tea and sale of work in McKee's Store (by the kind permission of Mr. McKee) on Saturday, May 18th, from 2 to 6 o'clock.

H. D. Powers, of Calgary and formerly of Bassano, was injured in an automobile accident last week, sustaining three fractured ribs. Mr. Powers' car was hit by another car and turned over. Recent reports from Calgary state that the victim of the accident is improving nicely.

Notice

TOWN OF BASSANO

TUESDAY, MAY 26th is hereby ordered to be Clean-Up Day, and householders are notified to place all garbage and refuse in proper receptacles, on the line at the rear of their premises. Same will be removed the following day.

After this date there will be a right inspection of all premises by the Local Board of Health and the Fire Department under the provisions of the town-by-law, public health act.

By order of the Council

WORLD HAPPENINGS BRIEFLY TOLD

Prince Henry of Prussia, brother of the former Kaiser, died recently of pneumonia.

Oona Lehouky, a Viennese pianist, claimed a world record for continuous piano playing when she stopped seventy-five hours and fifty-five minutes after she began.

The German stand on reparations tends toward a new war, George Clemenceau, war time premier of France, said in an interview published in the Echo de Paris.

Financial conditions in the British West Indies are not very good at the present time, owing to the low prices for sugar, according to Right Hon. F. A. Anglin, P.C., chief justice of Canada.

A special train recently carried 170 prisoners from Portsmouth penitentiary, Kingston, to penitentiaries of Western Canada. Seventy prisoners were assigned to the provincial penitentiary of Manitoba and the remainder went to Saskatchewan.

Ching Ming King, Chinese, convicted on a charge of murder in the shooting of a Chinese, was sentenced to six years in the penitentiary by Mr. Justice D. A. McDonald, presiding at the session of the Nanaimo assizes.

An application by the Canadian attorney-general's representative to the privy council to fix June 27 as the date for hearing of an appeal concerning the validity of the Canadian fisheries act was opposed on behalf of the provinces of British Columbia and Quebec.

Peved because of asserted rudeness by American immigration officials at Vancouver, B.C., Sir Ritchie Drummond, noted Hindu poet and philosopher, desired to leave his ship, the liner Tulu Mar, when he docked at San Francisco en route to Japan.

Increase in Gold Supply

Was Greater By Sixty-One Million Than Amount Mined In 1928

Gold holdings in the United States at the end of 1928 were reported by the federal reserve board in the April issue of its bulletin to have been 37.6 per cent. of the world's total, which amounted to \$9,981,000,000.

The total gold supply was compiled from reports transmitted to the board from 40 countries and shows that the increase in gold of \$460,000,000 in a year was greater than the amount of gold mined during the year by about \$61,000,000. The increase was made, the report said, even though about \$80,000,000 was absorbed by Great Britain and an unknown amount taken away for industrial consumption.

Soldiers' Settlement

31,360 Veterans Have Been Settled On Farm Lands

Veterans to the number of 31,360 have been settled on farm lands, with and without loans, under the Soldiers' Settlement Act, according to a report tabled in the House of Commons. No fewer than 6,652 of these men established themselves without financial assistance from the Government. More than 6,000,000 acres in all, at an average price of \$10 per acre, have been bought or homesteaded by the Veterans.

Minerals in Alberta

Alberta is famous for its vast resources of coal, for the rapid development of its oil and gas resources, and for the extent of its unique deposits of bituminous sands.

The bones of an average man weigh twenty-five pounds.

Cleaning Metals

Brass and copper require the same treatment, and any good patent cleanser may be used. Most directions advise that the polish be allowed to dry and the metal then polished with a soft cloth, but better results will be obtained if the metal is washed to remove all polish and given a final rub with a paste of rottenstone and fine linseed oil.

Ornamental metal pieces are often given a lacquer treatment which eliminates frequent cleaning. The metal is polished but the rottenstone and oil rubbed omitted. The metal is wiped with denatured alcohol before the application of the lacquer. Two coats of the lacquer are better than one, and half an hour should be allowed between the coats. The lacquer only be used on exterior metal work but it will need renewing often in that case.

When another cleaning is needed, the lacquer should be removed with denatured alcohol and hot water. Soak the lacquer in hot water and it will come off easily.

Pewter is cleaned with a very fine abrasive. Steel wool No. 00 and soap, or a paste of rottenstone and oil may be used. After cleaning wash in hot soap suds and polish with a soft cloth.

A coarse abrasive should not be used on nickel-plated brass. When the nickel is worn off there is nothing to be done but to have the metal replated. Nickel faceted should be washed with hot soap suds and kept as dry as possible. It is a good plan to use paper napkins to dry a faceted nickel piece.

Polish by washing and drying. Aluminum may be cleaned with hot soap suds, fine steel wool and soap, or a fine friction powder.

Woven metal scouring cloth should be rinsed and hung up to dry quickly.

If food has burned on the bottom of a pan, a solution of soda and water will clean it.

Glass should be cleaned with steel wool.

It is well to wear rubber gloves when cleaning metal as the process plays havoc with hands and finger nails.

Airplane On Submarine

Big Innovation Has Been Added To Italy's Newest Craft

Italy's largest and best equipped submarine, the Franco Tosi, has been launched at the dockyard at Ancona, Italy. The submarine has two 3,000 horsepower Diesel engines of special design which can be used separately or together and which give a surface speed of 19 miles an hour. Two electric motors of 1,000 horsepower each propel the submarine at a speed of ten miles an hour under water.

The submarine's artillery is one anti-aircraft gun and several machine guns. The submarine is to carry a seaplane in a large tube adjoining the turret, a big innovation in submarine technique. The tube is able to rise over 300-foot depth water pressure.

Draws Attention To Peace River District

Has Room For 2,000,000 People Says Major-General McRae

Major-General A. D. McRae will again draw the attention of parliament to the colonizing possibilities of the Peace River country. His visit to that area last year has more than confirmed his previously expressed opinion that 2,000,000 people can find homes for 400,000 farms of 240 acres each. General McRae will urge greater railway facilities, modern methods of preparation of scrub land and a national colonization and settlement policy extending over ten years.

The oldest steamship in the world is said to be the barque "Constance," built in 1723, and now in use as a training ship at Copenhagen.

Canada's Forest Products
One freight car in every six in Canada is loaded with forest products.

She: "I've just spent ten dollars on a canary."
He: "That's nothing! I spent twenty-five on a lark!"

Officials of the national boys' work board who held their annual conference in Toronto are: (1) Taylor Statton, honorary national secretary; (2) J. R. McGregor, manager of the Halifax Chronicle and Star and president of the board; (3) D. R. Pook, national secretary; (4) G. McMillan (secretary for Manitoba); (5) Wilfred Scott (secretary for Saskatchewan); (6) Gordon Lepp (secretary for Alberta); (7) Frank Fidler (secretary for British Columbia); and (8) W. C. Machum (secretary for Maritime).

The Care Of Books

Many women who take beautiful care of their clothing and their kitchen utensils, their linen closets and their refrigerators, are careless about those choicest treasures of the home—the books. We are all apt to stick books away in bookcases or on open shelves and forget all about them except to whisk an occasional duster along the fronts of the shelves.

Books need just as much care as rugs, household linen, and fine leather shoes. If they are to enjoy long life and keep their shape and their freshness, dust accumulates on book shelves almost more quickly than anywhere else in the house, or at least it seems to, perhaps because there are so many edges exposed to the sweeping dust particles.

The light wood or feather duster should be used daily, and at least once a month, every book in the house should have individual care. Take it down and wipe off the cover and the tops and sides of the pages, to preserve the leather.

Keep all books out of the direct rays of the sun. This dries out the glue and tends to loosen the binding and will ultimately fade all of the colored cloth covers. Another way to keep books in good condition is to see that they stand upright at all times, whether between the book ends or on the shelves. A book tipped sideways gets its covers pushed out of shape and tends to come apart. If books do not support each other by standing close together, a small japanned book end may be inserted behind and there on the shelves.

The way a new book is opened has much to do with its future health. By opening a few pages at a time and gently pressing them back, the backs will not be broken nor will the glue and the stitching be strained. A book that is grabbed and cracked open violently may be permanently injured.

Alberta's Fish Catch

Though agriculture is the largest industry in Alberta as it is for Canada as a whole, the province has several other industries of great value. Among these are the fisheries.

A recent official report discloses that fish to the value of \$570,428 were caught in the lakes and rivers of Alberta in the 12 months ended March 31, 1929. Among the varieties of fish caught, white fish headed the list with a total catch of 2,753,000 pounds, trout second with 1,387,100 pounds and pickerel third with 654,500 pounds. The larger part of the catch is exported to the United States.

Make Your Priming Coat

By a priming coat is meant the first, or primary, coat of paint on metal or plaster. The first object of the priming coat is to stop most of the suction, present to a great extent in wood and plaster, so that the finishing coats will stand out with a uniform degree of gloss, or, in the case of flat-wall paint, with a uniform degree of flatness.

In this connection, please note that no such uniformity can be obtained until the porous nature of the surface, or suction, has been satisfied. In the case of metal surfaces the degree of suction, or porosity, is far less noticeable; therefore, such surfaces will naturally call for a different priming treatment.

The second object to be aimed at in the first class priming coat is a proper degree of penetration of the face, so that the paint will to the greatest possible extent become a part of the surface—not merely so much pigment and oil spread out on top of the surface and insecurely bound in the surface.

Bearing these objects in mind, the erasing or sanding of a surface so that a thick priming coat cannot possibly be a good priming coat. Why? Takes the first object out of the picture. If a thick priming coat is applied to wood or plaster the porous nature of the surface will suck away most of the oil from the paint, which, being left, will just like glue, or oil to bind it and form a good film.

The result is, that instead of having stopped the suction, you have merely superimposed another surface, porous in nature because it has been deprived of too much oil and instead of being a surface for the paint to be a reason—and that also keeps the props from under our second support—the binder.

So we arrive at the natural and logical conclusion that priming coats on wood and plaster must be thin coats—it is almost impossible to get a thin coat. If a priming coat can be said to be, too thin, such a claim can only be advanced from the cover, or the viewing viewpoint—a demand which can be easily remedied by an additional coat. But if too thick a priming coat is applied, a dozen coats will not cover up the blunder, because it will be exposed by the almost inevitable result—peeling of the paint from the surface.

When in doubt—thin priming coats.

Literature On Farming

Some Must Turn Deaf Ear To Educational Matter Supplied

When one reads of the poor methods that are used in farming by a number of men who are engaged in that profession, one is tempted to wonder whether the enormous mass of educational matter that is being run from presses and the multi-graphs by the department of agriculture is reaching the people, farmer or whether the farming being a deaf ear to the good advice and goes on with its dirty deed; his scrubber, his rusty shovels and his unprofitable poultry run, out of sheer carelessness.

Dean (to Froh): "Do you know who I am?"
Froh: "No, I don't, but if you can remember your address, I'll take you home."

"Well, how do you find married life?"
"Great fun—my wife cooks and I guess what the dish is."

It would cost more than \$250,000,000 to duplicate the Great Wall of China, engineers estimate.

Flowering Shrubs For the Prairie

Many Varieties Of Shrubs Hardy To Western Conditions

A bare looking prairie yard may be made very attractive by the planting of a few flowering shrubs. There are many of these shrubs for homes in all parts of Canada, varying in form, in shade, and in other ways, to suit whatever location they occupy. The experienced farmer has for forty years been testing shrubs of various kinds at the Central Experimental Farm, at Ottawa, and at the branch farms and stations throughout Canada. The information thus gained has been brought together in a bulletin written by Mr. W. T. Machum, the Dominion Horticulturist, entitled "Ornamental Trees, Shrubs and Woody Climbers." For the Prairie Provinces many varieties have been found hardy and otherwise suitable. These include the Allegheny Shadblow, or Shadblow, Gauguin or Siberian Pea Tree, the Russian Almond, and the Lilac, of which there are a large number of varieties. This publication, number 69 in the bulletin series and issued by the Department of Agriculture, at Ottawa, names and describes scores of trees, shrubs, and vines, and hardy plants, showing many of them in attractive illustrations.

The information thus gained has been brought together in a bulletin written by Mr. W. T. Machum, the Dominion Horticulturist, entitled "Ornamental Trees, Shrubs and Woody Climbers." For the Prairie Provinces many varieties have been found hardy and otherwise suitable. These include the Allegheny Shadblow, or Shadblow, Gauguin or Siberian Pea Tree, the Russian Almond, and the Lilac, of which there are a large number of varieties. This publication, number 69 in the bulletin series and issued by the Department of Agriculture, at Ottawa, names and describes scores of trees, shrubs, and vines, and hardy plants, showing many of them in attractive illustrations.

Flowering Shrubs For the Prairie

Arbor Day

Monday, May 6th, is Arbor Day. By provincial proclamation it has been declared a public holiday throughout Alberta. Announcement to this effect was published in the April 15th issue of the Alberta Gazette.

In this issue on page 5 we have announced that the stores would be open on this date, but according to the latest information we can get, some of the stores may close.

Local News

Mr. and Mrs. O. H. O'Toole, old timers of the Majorville district, recently returned from California where they spent the winter.

O. H. O'Toole is driving a new Buick coupe which he purchased from Harvey Smith, local dealer.

A baby girl was born to Mr. and Mrs. Fred Hunsar on Saturday, April 27th, in the Bassano Hospital.

Miss Vivian LePage, of Cluny, is a patient in the hospital here. She is getting along nicely after an operation.

Miss Margaret Woodward, of Duchess, was the guest of Mrs. Milroy for a few days this week.

The Knox Church Ladies' Aid held a tea and sale in the basement of the church on Wednesday, May 1st. There was a good attendance.

Mrs. M. Lee is very ill, and confined to her bed.

Duchess News

Duchess, May 2nd - Miss Alice Spencer and Miss Rae Clemons, of Calgary, are very spending a few days at the home of Mr. Spicer and Miss Charlotte Spicer.

Mr. Tench, of Bassano, has given two demonstrations of cooking in the new aluminum ware. One was held on Tuesday at the home of Mrs. Hale, and the other evening of that day at the home of Mrs. Carl Blom. There will be another demonstration this evening at the home of Mrs. Martin Ross.

Miss Lillian McDonald, who has been visiting at the home of her mother, Mrs. Sam Howe, of the Aurora P. Ranch, is leaving for an extended visit to Vancouver and Seattle. Mr. O'Hare has gone to his ranch in Jenner, after spending the winter in Duchess.

Little Jimmie Gahan had the misfortune of having the end of his fore finger on the left hand cut off in a wheel drill Tuesday. He was taken care of by Dr. Anderson. Anderson dressed the injured member, and is now doing nicely.

Miss Bone, of Rosemary, comes today to have charge of her music pupils.

J. H. Nesbitt, of the Brooks Bulletin, was a business caller on Tuesday. Mrs. Hole, Harold and Ruth Hole, motored to Drumheller on Sunday to see Mrs. Ridley, a sick friend, in the hospital there. Word was received the next day that she had died.

Many of the people in the district are sick with the flu.

Mr. and Mrs. M. Purcell and daughter Jean returned from Calgary Tuesday evening after spending a holiday with relatives.

Many of the people in the district are sick with the flu.

Mrs. Read and Dickey leave Friday night from Brooks for Montreal, where they will take the boat for Liverpool to join Mr. Read. They will make their future home in Liverpool.

FOR SALE - Household furniture; apply to M. L. Bunday, A. P. elevator, Bassano. 43-44c

KNOX PRESBYTERIAN CHURCH
Rev. P. C. McRae, minister
Sunday, May 5th, 1929

11:30 a.m. - Sunday School and Bible Class.
9:00 p.m. - Community Service at L.P. Hall.

7:30 p.m. - Evening Worship; subject, "The Shadow of the Almighty." Everybody Welcome.

Much to Do
"Has you made all arrangements for your marriage, Mandy?"

"Well, not yet. All I have got to do is to buy a house, or rent a house, and get my husband a job, and buy him a good suit of clothes, and get some regular work to do. As I shall then be done all the name the happy day."

Her First Silent Ride
"Why did you shed such copious tears at the funeral?"

"I was thinking," answered Mr. Chugstun, "of the dear woman who was still a passenger, but no longer able to drive from the back seat."
